Total Respondents: 100		

## 2019 Impact Aid GCDSD Parent Survey

Impact Aid is a Federal Educational Program that reimburses school districts for the loss of revenue associated with the presence of Non-taxable Federal property. For example Federal low-rent housing, National Parks, Federal buildings, Indian Trust or Treaty lands. Impact Aid provides revenue that a community would otherwise generate through property, income and sales taxes. It supports the school districts operating fund and is used to support all students in the district just like other local tax revenue. These funds can be used for any general fund purpose, such as instructional material, teacher salaries, transportation, technology, social-emotional supports or facilities. Decisions on how Impact Aid funds are utilized are made by the school district. Local control allows school district leaders to target funds to support all students where the needs are greatest.
