

USE OF SCHOOL FACILITIES

All school facilities within the District have been provided primarily for educational purposes, which includes student extra-curricular activities and adult education. School activities shall take precedence over all other usage. The District is interested in recovering actual extra costs involved in permitting the use of its facilities to others. It is not the District's intent to furnish accommodations to individuals and groups engaged in any form of Private enterprise or commercial endeavor, except when providing a public service or educational activity or possibly in cases of major disasters. Non-profit, local (those located within the school district), community, civic, social and religious organizations may be permitted to use school facilities on a one-time, temporary basis whenever their usual accommodations are considered to be inadequate for a specific occasion and other reasonable arrangements cannot be made within the community. Any non-profit organization formed solely for promoting good health, constructional, non-controversial education, or interested in furthering the general well-being of the community without discriminating as to race, color, religion or sex may be classified, upon individual application, as being educational in nature. Non-profit organizations may be eligible to apply for use of facilities without cost.

The superintendent will establish conditions and procedures as may be prescribed by law, under which local (those within the school district) individuals and groups may lease school facilities through the school administration. The superintendent shall develop and recommend to the board a fee schedule applicable for use of school facilities. For the purposes of this policy, the athletic director may be delegated administrative authority by the Superintendent.

The board subscribes to the belief that public schools are owned and operated by and for its patrons. The public is encouraged to use school facilities but shall be expected to reimburse the district for such use to insure that funds intended for education are not used for other purposes. On recommendation of the superintendent, the board shall set the rental rates schedule.

The superintendent is authorized to establish procedures for use of school facilities, including rental rates, supervisory requirements, restrictions, and security. Those using school facilities shall maintain insurance for accident and liability covering persons using the district's facilities under the sponsorship of the organization. Community athletics programs that use district facilities shall not discriminate against any person on the basis of sex in the operation, conduct or administration of their programs. For rental rate purposes, organizations seeking the use of school facilities have been divided into three categories:

School or Child-related Groups or Other Government Agencies include those organizations whose main purpose is to promote the welfare of boys and girls or to provide members of the community access to government programs or opportunities for civic participation. Examples are: Scouts, Campfire, PTA, 4-H, city or county sponsored recreation groups, polling places, political caucuses and governmental groups. When facilities are used outside of regular school hours or the district incurs extra utility, cleaning or supervision costs, a fee, to be established by the superintendent, shall be charged to recoup those costs. Additionally, youth organizations engaged in sports activities and using school facilities must provide a statement of compliance with the policies for the management of concussion and head injury in youth sports as required by RCW 28A.600. Page 1 of 2

Nonprofit Groups includes those organizations which might wish to use school facilities for lectures, promotional activities, rallies, entertainment, college courses, or other activities for which public halls or commercial facilities generally are rented or owned. The district shall charge a rental rate in excess of costs incurred, except that such excess charges may be waived when a service club or other nonprofit group is raising funds for charitable purposes. To be granted this exception, the charitable organization must be recognized by the Philanthropic Division of the Better Business Bureau. Professional fund raisers representing charities must provide evidence that they are registered and bonded by the state of Washington. Such fund-raisers must provide evidence that the charity will receive at least sixty (60) percent of the gross revenues received from the public prior to approval to use the facilities. Similar treatment may be granted public universities and colleges when offering college courses within the community or when any university/college is offering a course for staff at the request of the district. Nonprofit groups of the kind that in most communities have their own facilities (churches, lodges, veterans' groups, granges, etc.) who wish to use district facilities on a regular, but temporary, basis may do so under this rental rate, but for no more than two years and may not average more than twelve hours of use per week.

Commercial Enterprises include profit-making organizations and business-related enterprises. While the district would prefer these organizations use commercial or private facilities, facilities may be rented for non-regular use at the prevailing rate charged by commercial facilities in the area.

District-sponsored activities, including curricular and co-curricular functions, retain first priority in use of facilities. Authorization for use of school facilities shall not be considered as endorsement of or approval of the activity group or organization nor for the purposes it represents.
